## 357/4 Matters Arising (not on the agenda)

- a) Stoke Road development – the consultant had reported issues with Department of Transport changes, but final report would be up to date and better.

## 358/5 Public Participation

Issues raised with the removal of trees at Cross Park with a view that there should have been consultation with residents and that there may have been an issue with nesting birds. The Clerk reported that there had been a tree inspection in January 2025 that reported that these trees were showing signs of disease and that their condition needed to be monitored. The Chair had liaised with our contractor responsible for maintenance of open spaces (Countryside Contract and Cross Park grass cutting) about the health and safety risk posed by these tall Leylandii trees and had suggested urgent action to remove these and plant a more suitable vegetation, The Chair had liaised with parish councillors and agreed to the removal as a matter of urgency (between parish council meetings), The contractor had contacted the forestry commission.

There were continued concerns regarding the Haven/Bourne Leisure handover day traffic.

A resident (reporting Church issues) raised issues with the contracted grass cutting of the closed churchyard (Medway Council/Norse contract devolved to the Parish Council). There had been issues reported by the contractor in cutting the grass due to 'equipment' installed around the closed churchyard. The Chair reported that this would be reported to the contractor, but a long term solution would be investigated.

## 359/6 Reports

### a Chairperson's Report

The Chair reported on actions taken on Health and Safety issues with Leylandii trees at Cross Park.

A issue with water supply at the Brimp has been raised and potential for a bill to the Parish Council (£10,000+). Under investigation – Water usage at the Brimp is very low and it was understood that the water supply comes from Bourne Leisure/Haven and there have not been any bills.
